Lynn and David, please take another lap. I am so out of shape that I would not make it.

Thanks,

Lynn,

I apologize for waiting to get back to you so late. I have been so busy, I thought work at home would be easier, but everyone wants to talk about risk and tox; it's killing me (inner conversation: **Ex. 5 Deliberative Process (DP)**)

**Ex. 5 Deliberative Process (DP)** Nikia, can you give Lynn approval for this limited research?

Hi Charlie –

As requested, I have drafted a letter to Wei Huang, the editor of the *Science of The Total Environment*, regarding the review of the McDermott et al. meconium article. [Note: This is just a first draft for your initial feedback and has not gone through any internal review.]

I look forward to your feedback on the letter and direction on next steps.

Thanks,

Nikia,

Could you give the approval for Lynn to write a first draft for the letter to the editor of the meconium study. Lynn we can discuss an outline if we get the ok from Nikia.
